

# Open source software to build global learning communities

**Juan Leyva**

Mobile and Spain Lead

@jleyvadelgado

# What is Moodle?

**An open source  
learning management  
system, first released in  
2001 and used all over  
the world.**

# Our Mission

Empowering **educators** to  
improve our world

# Our Vision

To give the world the most  
effective platform for learning
